

## Water, Sewerage By-laws Given Final Readings

This is the official record of the proceedings of Council of the Town of Wainwright at its regular meeting in the council chamber at 8 p.m. on Tuesday the 3rd day of September 1946.

The members of Council present at this meeting were Mayor Middlemas and Councillors Leggett, Coleman, Stafford, Cork, Torky and Robinson. The recorded proceedings of Council at their regular meeting held on August 6th were read and on motion of Councillor Leggett were confirmed as written.

On motion of Councillor Stafford, that the application of Miss Elsie A. Haywood of Wainwright to purchase Lot 4 in Block 56, Plan 6445-AD, for the sum of \$115.00, be accepted by Council pending the passing of the necessary by-law.

An application received from Alfred D. Montjoy of Wainwright, to purchase Lot 30 in Block 36, Plan 6445-V, for the sum of \$97.50 was received and on motion of Councillor Stafford that this be accepted pending the passing of the necessary by-law.

On motion of Councillor Stafford, that the application of Harold F. Barr of Wainwright, to purchase Lots 1 to 5 inclusive in Block 66, Plan 6721-AD, for the sum of \$300.00, and on motion of Councillor Stafford that this offer be accepted pending the passing of the necessary by-law.

An application received from Arthur H. Darling of Wainwright, to purchase Lots 1 to 5 inclusive in Block 66, Plan 6721-AD, for the sum of \$300.00, and on motion of Councillor Stafford that this offer be accepted pending the passing of the necessary by-law.

On motion of Councillor Stafford, that the communication received from M. L. Michon, requesting authority from Council, to establish a gunsmith shop in the basement of his father's home on 4th Avenue East, be concurred with and that a recommendation be made to the War-time Prices and Trades Board to this effect.

On motion of Councillor Coleman, that the letter dated August 18th, from Secretary of Women's Institute be received and filed, and that the Women's Institute be advised that the matter mentioned therein is being attended to.

On motion of Councillor Robinson that the letter from Harley Revell be received and the adjustment requested therein be complied with.

On motion of Councillor Robinson, that the letter from Tanager & Co. be acknowledged and that they be advised that the sale of Town Debentures will be left in abeyance for the present time.

On motion of Councillor Robinson, that the Old Age Pension Application of Mrs. Margaret Christensen of Wainwright, be recommended by Council in the maximum amount.

On motion of Councillor Robinson, that the Report of the Municipal Inspector, hearing date of July 25th, 1946, be received and placed on special file for future reference and that Department be advised that the recommendations contained therein will receive attention.

On motion of Councillor Torky, that the Petition received regarding the condition of the streets in the north west section of the Town, be referred to the Public Works Committee.

with authority to take the necessary steps to have these streets put in proper repair.

On motion of Councillor Cork, that the Utility Map be granted holidays from September 10th to 17th.

On motion of Councillor Cork, that the letter from Mr. T. E. Tanner, Divisional Superintendent of the Calgary Power Co. Ltd., be received and filed and that this letter be embodied in the minutes of this meeting for publication, as follows:

Calgary, Alberta,  
August 9th, 1946.

Town Council,

Calgary, Alberta,

Gentlemen:

Interpretation of Electric Service

This letter is being addressed to every Town and Village in this Division, which extends from Camrose east on the C.P.R. to Saskatchewan, and east on the C.N.R. to Toronto and Wainwright.

During this summer season we have had more unavoidable power interruptions than the writer has previously experienced in his sixteen years working for the Calgary Power Company in this district. Our Company can quite appreciate how it must have inconvenienced many of the citizens of your community.

This letter is written with one intention only—of expressing to you and to your fellow citizens our sincere regret that these interruptions of service have taken place. The majority of the interruptions of service have been due to either lightning or wind storms, extending from the source of our supply at the Ghost Plant west of Calgary, to the extreme points of our system wherever they may be.

However, there is just one other cause of interruptions which, while practically beyond our control, could have been avoided if we had the whole-hearted co-operation of the people in the districts where our lines pass through. I am referring to insulators on our poles being damaged through being shot at, chiefly we believe, with .22 rifles, and we are appealing to you to do whatever is within your power to educate especially the young people in your community to desist from these acts of vandalism.

It is the intention of the writer to appeal through our school districts later on in the season, asking them to co-operate in educating the children, and we feel certain that we shall have the whole-hearted support of the Town and Village Councils when we do so.

Yours very truly,

CALGARY POWER CO. LTD.

Per: T. E. Tanner,

Divisional Superintendent.

On motion of Councillor Cork, that the Report of Town Constable Patterson for the month of August, be received and filed.

On motion of Councillor Cork, that the communication received from Haddon & Miles, Consulting Engineers, concerning Water & Sewer Project, be tabled until further information is received from Mr. Haddon on this matter.

On motion of Councillor Robinson, that the Report of the Finance Committee be accepted and that the Mayor and Secretary-Treasurer be authorized and instructed to issue cheques to pay the individual accounts in the total amount of \$1065.56.

## Farm Union Activities

The directors and strike committee of Battle River Local No. 566 of the Alberta Farmers Union met at the home of Mr. and Mrs. Geo. Tindall, Jr., on Monday night for a special meeting to discuss strike action.

The strike committee, composed of J. Oldham, Chas. Ford, Jim Laycock and Howard Johnson, elected Seth Oldham to be their chairman. After considerable discussion, centred around strike action, plans were made to interview grain companies and other receiving agencies of farm products, and also to interview the truckers in the district to try and get their co-operation and support in the event of a strike. It was also decided to call a meeting of the local for Wednesday night to make an appeal for funds to send to central office.

After the meeting lunch was served by the hostess, during which the conversation centred around the current problem of getting in the harvest. The gathering broke up around 12:30.

Meeting of the Battle River Local No. 566 of A.F.U. was held at Paschenale school on Wednesday night. A very large and enthusiastic crowd was in attendance. The meeting was opened by the president, followed by the reading of the minutes of the last meeting.

Then a lively debate took place on strike action. The president then gave a short address on the demands in the brief presented to Ottawa by the delegation of the A.F.U. and the U.F.C. (Saskatchewan section). A motion was then passed that each member pay \$5.00 into the Strike Action Fund. \$165.00 was collected from the members present and the secretary was instructed to send the money to Edmonton immediately. A canvass of the district will be made for the purpose of collecting from members not present at the meeting.

—Con.

Methods of control—

(1) Cultivation:

(a) Deep cultivation.

(b) Surface cultivation.

(2) Chemicals

(3) Competitive crops

(4) Cultivation:

(a) Deep cultivation:

This method is better practised on heavier soils, and usually consists of shallow ploughing and discing followed by the use of the duckfoot cultivator or springtooth to bring the roots to the surface. This method is very destructive to the soil fibre, as much of the valuable organic matter in the root system is destroyed. In a dry year there is a danger of producing a deep layer of dry soil to further endanger soil erosion, as repeated discings and many operations with other cultivation implements are required.

(b) Surface Cultivation:

The implement best adapted to this method of eradication is the one-way disc tiller. When using the tiller, consideration is given to the fact that the above ground part of the weed is the food manufacturing portion of the plant. If this is cut off periodically over a sufficient length of time the roots will exhaust the food reserves in the roots by attempting to produce more leaves and stems. When the food reserves are exhausted the plant will die. This method holds true in the eradication of all perennial weeds.

The first operation in the eradication of Quack grass should be the shallow ploughing of all hostations the last thing in the fall before freeze-up. DO NOT cultivate the fall plowing. The following spring when a sufficient growth has appeared, cultivate with the tiller and continue the one-way disc every two weeks for the first part of the season when the regrowth is rapid. Longer intervals may be sufficient later in the season. Cultivation must be continued until freeze-up. Where this method is used the roots are left in the soil to decompose and add food and fibre. The tiller must be sharp and properly adjusted, or the operation will be useless. Cultivation should be shallow just deep enough to make a clean cut.

(3) Chemicals:

Help of some little friends, calculated rate of two pounds per hundred square feet is usually an effective means of eradication. Chemical control is only practical for use on small patches or where cultivation is impractical because of the expense involved. Follow up treatments will be required to completely eradicate the weed.

(3) Competitive Crops:

Such crops as Fall rye and Oat barley are very good in competing with weeds. These crops should be used after summer fallowing for Quack grass control as a few weakened roots may remain in the soil. Fall rye can be seeded late in the season and winter early allowing for full cultivation. Oat barley is an early maturing variety and can be seeded after two or three thorough spring cultivations, or if seeded first thing in the spring it can be harvested early to allow fall cultivation.

Soil drifting and water erosion is often a problem, so it would be advisable to divide the fields that are heavily infested into strips that can be easily handled, and eradicate the weed by this method.

Our business in life is not to get ahead of others; but to get ahead of ourselves—to break our own records, to outstrip our yesterday's by our today, to do our work with more force than ever before,—Sydney B. Johnson

## With The Field Supervisor

by F. W. Madden

THE CONTROL OF QUACK GRASS

A number of the farms in the M.D. of Wainwright are becoming badly infested with Quack or Quack Grass. In the following article are a few suggestions of the character and control of this weed.

Quack is a perennial which propagates by running root stocks and seeds. A small piece of the root stock under favorable conditions is capable of producing new plants. These are most often spread by farm implements, such as cultivators, harrows, or any dragging implement, moving from one infestation to the other without being cleaned properly.

A heavy infestation will have from four to five tons of root system per acre, and therefore it is extremely difficult to bring every root to the surface of the ground. Through a long period of experimenting it has been proven that three to four hours in the bright sunlight is sufficient to destroy Quack Grass roots.

Methods of control—

(1) Cultivation:

(a) Deep cultivation.

(b) Surface cultivation.

(2) Chemicals

(3) Competitive crops

(4) Cultivation:

(a) Deep cultivation:

This method is better practised on heavier soils, and usually consists of shallow ploughing and discing followed by the use of the duckfoot cultivator or springtooth to bring the roots to the surface. This method is very destructive to the soil fibre, as much of the valuable organic matter in the root system is destroyed. In a dry year there is a danger of producing a deep layer of dry soil to further endanger soil erosion, as repeated discings and many operations with other cultivation implements are required.

(b) Surface Cultivation:

The implement best adapted to this method of eradication is the one-way disc tiller. When using the tiller, consideration is given to the fact that the above ground part of the weed is the food manufacturing portion of the plant. If this is cut off periodically over a sufficient length of time the roots will exhaust the food reserves in the roots by attempting to produce more leaves and stems. When the food reserves are exhausted the plant will die. This method holds true in the eradication of all perennial weeds.

The first operation in the eradication of Quack grass should be the shallow ploughing of all hostations the last thing in the fall before freeze-up. DO NOT cultivate the fall plowing. The following spring when a sufficient growth has appeared, cultivate with the tiller and continue the one-way disc every two weeks for the first part of the season when the regrowth is rapid. Longer intervals may be sufficient later in the season. Cultivation must be continued until freeze-up. Where this method is used the roots are left in the soil to decompose and add food and fibre. The tiller must be sharp and properly adjusted, or the operation will be useless. Cultivation should be shallow just deep enough to make a clean cut.

(3) Chemicals:

Help of some little friends, calculated rate of two pounds per hundred square feet is usually an effective means of eradication. Chemical control is only practical for use on small patches or where cultivation is impractical because of the expense involved. Follow up treatments will be required to completely eradicate the weed.

(3) Competitive Crops:

Such crops as Fall rye and Oat barley are very good in competing with weeds. These crops should be used after summer fallowing for Quack grass control as a few weakened roots may remain in the soil. Fall rye can be seeded late in the season and winter early allowing for full cultivation. Oat barley is an early maturing variety and can be seeded after two or three thorough spring cultivations, or if seeded first thing in the spring it can be harvested early to allow fall cultivation.

Soil drifting and water erosion is often a problem, so it would be advisable to divide the fields that are heavily infested into strips that can be easily handled, and eradicate the weed by this method.

## Ribstone Win Baseball Series On Sun. Last

Sunday last, September 8th, saw the play off games of the East Baseball League held at Edgerton.

A very large crowd gathered to watch the boys do their stuff and after passing the hat three different times during each game, nearly \$120.00 was collected to be divided between the four clubs.

The first game got under way at 8:00 p.m. when Wainwright and Edgerton met on the latter diamond. This game was considered the best game of the day with the closest score being chalked up. Wainwright led Edgerton with a score of 5 to 4 in 7 innings.

## MAPLE LEAF PRODUCTS ARE BEST

With the harvest season near at hand order your fuel and oil requirements early. Complete stock of greases, transmission and motor oils, distillates, diesels and gasoline.

**REMEMBER!** Order your requirements NOW! See the new underground storage tanks, they'll save you money.

Buffalo Service Wainwright

## PELICAN

(Last Week)  
It appears now that Miss Jackson will not be teaching at Pelican as promised and instead we shall have a supervisor of correspondence courses.

Miss Marion Dallyn from Ribstone will be the supervisor at Empire School.

Pelican A.F.U. held a meeting at the school on Friday evening.

Mr. and Mrs. W. E. Murray left Tuesday morning by bus on their way to Calgary for a visit.

Romeo Biplanger attended the meeting of the Board of Directors of the A.F.U. at Vermilion on Sunday.

At long last the mile of road from Hagen's corner to Murray's corner has been built up. Some improvement too!

(This Week)  
Once again schools are open. Miss Lillian Perkins has charge of Pelican where Raymond Belanger is a beginner. Miss Marion Dallyn is supervisor at Empire where Doug Murray is making his start. There are five pupils in each school.

Verda Asen and Jeanette Cornfield are attending high school in Wainwright and staying at the dormitory. Due to the very muddy roads they were unable to be home for the first week-end.

Bellis started threshing last Monday afternoon, and in spite of working short handed, finished all of Mike's and Paul's wheat by Wednesday night. Then we had another heavy rain which halts all threshing for about a week.

## HEATH

Mr. and Mrs. Ough and baby daughter Sherry returned to Edmonton on Saturday's train.

Mr. Fyfe of the National elevator moved to the city on Saturday to bring his family here.

Heath school opened for the new term with thirty-three pupils. There is a beginners class of five this year. Donald Davis, Clarence Smith, Agnes Measler, Dale Herbert, Dennis Measler and Elaine Rajotte. The teacher is Miss Madeline Kuefer of Galahad and is assisting with Mr. and Mrs. Joe Touchette.

Lorne Davis moved the Steenson's household effects to their new home in Wainwright on Friday.

Mr. La France is operating a well outfit at Stanley Touchettes in an effort to get water close to the house.

Jack O'Keefe has purchased one of the new Ford tractors recently shipped into Wainwright.

Harvest Thanksgiving service will be held on September 22nd at St. Patrick's church when Rev. Broderick will be present for his last service before returning to Winnipeg.

## EDGERTON

School re-opened September 3rd with two new teachers. Miss M. McLaughlin and Miss Elsie Horn taking the places of Miss E. Whelan and Miss Elsie Ford who have resigned.

At the Memorial Hall last Thursday a very pleasant evening was spent when Mr. Bob Groves a newly arrived bride from the Old Country was showered by the community with numerous and useful presents and a welcome to the Village.

The evening was sponsored by the Legion and Auxiliary and was well attended. A nice lunch was served and a few dances enjoyed which rounded off a very successful evening.

The playoff of the local baseball league was held Sunday. A large crowd saw some good games. Edgerton beat Wainwright in the first game. Ribstone beat Chauvin in the second and Edgerton were badly beaten by Ribstone in the final.

Roy and Jenny Evans went to the city Sunday planning to bring their mother back from the hospital.

There will be a singing service at St. Mary's Church next Sunday, September 16th at 7:30 p.m.

## GERALD

School opened on Tuesday of last week with Miss E. MacDonald as teacher.

Mr. and Mrs. J. McKendry of Vancouver were visitors for a few days last week at the homes of Mr. and Mrs. Krendry's brothers, R. and W. E. Moffatt.

Mr. and Mrs. D. McKimm and son of Flint, Michigan spent a few days visiting at the homes of Mr. and Mrs. Robt. Moffatt and Mr. and Mrs. W. E. Moffatt.

Gordon Greenway spent the week-end visiting old friends in this district.

The Mission Band held its September meeting in the school on Thursday afternoon. Shirley Christopherson presided. The study of the new book "Shera of Punjab" was begun.

The contest was won by Clara Campbell. Della Christopherson served lunch.

Mr. and Mrs. J. Priesen and son of Klamath Falls, Oregon, have been visiting at the homes of their cousins, Mrs. E. Gullekson and Mrs. C. Gullekson.

Mr. L. Torgeson of Victoria, B.C., was back here for a few days last week. He was accompanied by his son-in-law, Mr. R. Alton of Chilliwack.

Mrs. J. Perkins has had visiting her recently her father and mother, Mr. and Mrs. Rowe of Gadsby, and also her sister and family from Edburg.

## GREENSHIELDS

Mr. and Mrs. John Rabby of North Battleford, Sask., former residents of our name, spent a few days here renewing district acquaintances.

Miss June White is spending a week with her parents here before returning to her teaching duties at Wetaskiwin.

Mr. and Mrs. Rufus Carl and Marilyn accompanied by Mr. and Mrs. L. I. Carl moved to Mannville on Sunday.

Although somewhat belated, congratulations are extended to Miss M. Fossen (Peggy) on the winning of the Wainwright School Division Grade IX Scholarship.

Mr. and Mrs. R. Carl had their daughter christened on Sunday morning at the Wainwright United church.

Mr. and Mrs. S. W. Lord of Hardisty were visiting friends in the district last Sunday.

Mrs. L. Stouffer spent the week-end in Wainwright.

The rains of the past week have delayed harvesting operations in the district.

## SSHEEPSKIN FLATS

Miss Betty Swan spent the latter part of her holidays with her grandmother.

We are very pleased to have Miss Helen Dalton back again as school teacher.

The rains will put the threshing back for some time and, make the roads bad so this news may not get in in time for this weeks paper.

Mr. W. Bolduc, with the help of Mr. Bob Myer, is busy these days tilling for Mr. R. J. A. Roberts.

Mr. C. Maclean with his son Jack are in the city on business.

Little Jimmie Thompson with the help of one little friend, celebrated his second birthday on August 28th.

CONTINUATION OF  
WATER & SEWERAGE BY-LAWS  
GIVEN FINAL READINGS  
continued from page 1

tended until 11:30 p.m.

On motion of Councillor Leggett, that Councillor Coleman receive the appointment as Deputy Mayor for the ensuing three months.

On motion of Councillor Coleman, that the absence of Councillor Stafford from Council Meetings in excess of the statutory period, owing to a serious illness, be duly authorized by Council.

On motion of Councillor Tory, that all Building Permits be authorized by Council prior to any construction being started.

On motion of Councillor Robinson, that assent be given to the introduction of a by-law concerning the sale of Lots 1 to 6 inclusive in Block 66, Plan 4712-AD, to Arthur H. Darling of Wainwright, for the sum of \$90.00.

By-Law Number 524 then received its three readings in regular form.

On motion of Councillor Cork, that assent be given to the introduction of a by-law concerning the sale of Lot 20 in Block 75, Plan 6445-V, to Alfred D. Montjoy of Wainwright, for the sum of \$27.50.

By-Law Number 525 then received its three readings in regular form.

On motion of Councillor Stafford, that assent be given to the introduction of a by-law concerning the sale of Lot 9 in Block 26, Plan 6445-V to Harold F. Kere of Wainwright for the sum of \$30.00.

By-Law No. 526 then received its three readings in regular form.

On motion of Councillor Tory, that assent be given to the introduction of a by-law concerning the sale of Lot 4 in Block 56, Plan 4883-AD, to Miss Elsie A. Haywood of Wainwright, for the sum of \$15.00.

By-Law No. 527 then received its three readings in regular form.

On motion of Councillor Robinson, that the Report of the Returning Officer on the Water and Sewer By-Laws, held on August 12th, 1946, be received and ordered filed with the Records of the Town of Wainwright.

On motion of Councillor Robinson, that Water By-Law Number 470, receive its second reading.

By-Law Number 470 was then read for the second time.

On motion of Councillor Tory, that Water By-Law Number 470, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law Number 470 then received third reading and was declared finally passed in open Council.

On motion of Councillor Cork, that Sewer By-Law Number 471, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law Number 471 was then read for the third time and declared finally passed in open Council.

On motion of Councillor Cork, that Water Rates By-Law Number 472, be read for the second time.

By-Law Number 472 then received second reading.

On motion of Councillor Tory, that Water Rates By-Law Number 472, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law Number 472 then received third reading and was declared finally passed in open Council.

On motion of Councillor Leggett, that the Town Solicitor be instructed to make application to the Board of Public Utility Commissioners for the statutory approval by that Board of Water and Sewerage By-Laws Numbers 470 and 471 of the Town of Wainwright.

Council was then regularly adjourned.

The Veterans' Land Act

The Veterans' Land Act is designed to encourage Canada's finest citizens—a young war veteran—to settle on the land. It is, therefore, agricultural legislation of the greatest importance to the people of Western Canada.

Full Time Farming. One of the main purposes of the Act is to assist qualified veterans to engage in farming as a full time occupation.

Financial Provisions. For qualified veterans the Act provides a maximum of \$6,000.00 to cover the cost of land, buildings and other permanent improvements, livestock, and farm equipment, of which not more than \$1,200.00 may be used for the purchase of livestock and equipment.

With the time of application the veteran is called upon to deposit, in cash, 10 per cent of the cost of the land and buildings. He then signs a contract to repay only two-thirds of the cost of land, buildings and other permanent improvements over a period up to twenty-five years with interest at 3 1/2 per cent amortized.

In effect, the government absorbs a substantial part of the cost of each establishment, namely 23 1/2 per cent of the cost of the land and buildings plus the total cost of livestock and equipment up to \$1,200.00.

Other Provisions. The Act provides for the granting of loans at 3 1/2 per cent interest rate to veterans who own their own land and require funds to resume farming operations.

Recent amendments to the Act provide for grants, up to \$2,320.00, to veterans settled on Provincial lands; and for generous financial assistance to a veteran who purchases a farm on private agreement or proposes to lease a farm.

Without doubt, the Veterans' Land Act offers generous and broad assistance to qualified veterans who want to have a part in Canada's great agricultural industry.

On motion of Councillor Robinson, that the Report of the Returning Officer on the Water and Sewer By-Laws, held on August 12th, 1946, be received and ordered filed with the Records of the Town of Wainwright.

On motion of Councillor Robinson, that Water By-Law Number 470, receive its second reading.

By-Law Number 470 was then read for the second time.

On motion of Councillor Tory, that Water By-Law Number 470, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law Number 470 then received third reading and was declared finally passed in open Council.

On motion of Councillor Tory, that Sewer By-Law Number 471, receive its second reading.

By-Law Number 471 was then read for the second time.

On motion of Councillor Cork, that Sewer By-Law Number 471, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law Number 471 then received third reading and was declared finally passed in open Council.

On motion of Councillor Cork, that Water Rates By-Law Number 472, be read for the second time.

By-Law Number 472 then received second reading.

On motion of Councillor Tory, that Water Rates By-Law Number 472, receive third and final reading and that it be assigned its title as in the original motion and that the Mayor and Secretary-Treasurer be authorized and instructed to sign same and affix thereto the Corporate Seal of the Town of Wainwright.

By-Law Number 472 then received third reading and was declared finally passed in open Council.

On motion of Councillor Leggett, that the Town Solicitor be instructed to make application to the Board of Public Utility Commissioners for the statutory approval by that Board of Water and Sewerage By-Laws Numbers 470 and 471 of the Town of Wainwright.

Council was then regularly adjourned.

## THE FARMERS STRIKE

It has happened. The 22,000 members of the farmers organization, A.F.U., have voted to go on a non-delivery strike and have done so. The strike went into effect last Friday midnight and since then there has been no delivery of farm produce with the exception of milk and cream.

Whether this action among the farmers will have any effect on the government in Ottawa is hard to say. It certainly will not diminish the supply of bacon and eggs that the M.P.'s have served to them at breakfast.

Last week in this column was a list of the demands that the A.F.U. were asking, but it has been pointed out that the most important demand was the establishing of a board to determine a parity price policy. This is the one big demand that farmers in the country have been asking for and only the federal government can remedy the situation.

The Editor was happy to welcome a delegation of farmers on Saturday morning last. The round table discussion was enjoyed with many points being aired. The farmers, who along with the rest of the farming population, make up the largest percentage of our business population. They pointed out their stand in the matter, stating that they had received the co-operation of different elevator men in the district along with others who handle the farmer's produce.

Just what is to be gained by this strike action is very vague. If the Dominion Government does not meet any of the requests, what then? We can not see the farmer withholding his produce forever. It is to be hoped that some definite plan of action can be outlined if and when the occasion should ever arise.

One farmers attitude was that he would like to see the strike called off for just the satisfaction of showing that farmers of today are more independent and more unionized than ever before in the history of western Canada. It is all very well to see a strike take place "just for the satisfaction", but satisfaction will not buy shoes and clothing or repair binders or buy gasoline.

Another farmers attitude was that it was a communist attack on the present government using the farmers as a blind.

We have outlined two different viewpoints to show that some farmers have altogether different views on the situation. This is a sad state of affairs, which if allowed to exist, will act in detriment to the real cause of the farmers.

The A.F.U. should, if it hopes to succeed in its actions of calling a non-delivery strike, make clear its aims to the public and farmers alike. If it is wandering around without a clear cut aim, but merely in search of one, as it appears to be, they will never make their request heard in the Capital City.

The delegation which interviewed us Saturday last made its aims clear to the editor in that the real cause for concern is the rising cost of living with nothing in the way of higher prices for farm produce to compensate for the increased costs. One farmer stated to us that his cost of living is up approximately 60% over pre-war figures without any difference in the style or standard of living being affected.

The above statement also holds true to the average man on the street. True, labor has received a greater wage, and in most instances received a higher standard of living, but this is a privilege that should not be denied anyone. It would be difficult to find that labor has increased its standard of living beyond the realms of anyone else. It might be that labor has been underpaid in the past and have seized the opportunity to better themselves. To the largest extent this is what has brought about the rising cost of most commodities.

The above mentioned being true, this we believe is the reason that the farmer is now asked to pay \$5.00 for a pair of everyday work boots when formerly they were purchased for \$3.50, and many examples could be mentioned.

This has not altogether hit the farmer, as everyone has experienced the slight inflation that Canada is travelling through. Even labor in some instances is no better off now than before because of increased cost to itself brought on in most instances by its own higher wages.

The only way to remedy the situation as we see it is by more production by everyone, because it is a fact the initial costs are the heaviest and after initial costs are met maximum production is the only answer to finding a lower cost per unit of goods.

This might be the answer to the farm situation. If lower cost could be brought about with the same selling price that farmers now receive, would not the farmers be just as well off as before. We believe they would, if all things being equal, the higher production could be assured by more acres being planted. As far as the grain farmer goes he has a great deal to contend with, and in most cases luck and the grace of God can assure him of greater returns. What with drought, hail, pests, frost, etc., the chances of greater returns for greater work done is just a remote possibility.

Whether the farmers of the province can make a combined effort to withhold their produce, and by so doing can accomplish any gains for themselves as well as the rest of Western Canada, is a matter that only time will tell. It is certain that if they do not make any gains, or have any concessions granted, they are apt to find themselves worse off than before. This is what has to be guarded against for a prosperous farming population means prosperous towns and cities with everyone sharing the added income. If the farmers lose their battle it will just be a matter of time when we will all feel the pinch.

So we say, now that they have taken the opportunity to strike here's to their success, because much more depends on the outcome of their actions than was first anticipated.

## FARMING NOTES

By Prov. Dept. of Agriculture

### FAIR SEEDING OF GRASS

Excellent results have been obtained by fall seeding of grass in the drier regions of the prairie, but as in most farming practices, in order to obtain success, it is necessary to know where, when and how, says D. D. Matthews, Superintendent, Dominion Experimental Station, Scott, Sask.

Fall seeding of grass is done on land with suitable cover such as stubble or dead, annual weeds. In this case, the popular method of seeding on summer-fallow should be forgotten. The cover is needed to protect the young seedlings against possible soil drifting and gather snow to help the growth of grass. The only grain stubble to avoid is fall rye because the volunteer grain competes too strongly against the young grass.

Two periods are suggested as a result of 15 years testing, and large scale seeding of 50,000 acres by the Experimental Station at Scott. If rain comes when the summer heat is on the wane at the end of August or first week in September in sufficient quantity to permit root development, seed at that time. Under such conditions the plants are well developed before freeze-up. Experience has shown that fall seeding of grass should not be made around the end of September or early October, because the small growth made does not permit the plants to become strong enough to make healthy growth next spring. Seedings made just before freeze-up commencing the third week in October have given consistently good results. Late seedings do not start growth till early next spring. If the area is small the weeds may be clipped the first year of growth, but on large areas of cheap land this is not necessary. Alfalfa and sweet clover can only be seeded in late fall because early fall seeding usually results in loss of the young plants during the winter.

Seeding of grass is done as shallow as possible—about half an inch deep. No tillage of the land is required for fall seeding of grass either before or after drilling. In the case of cleared wheatgrass the recommended rate is five pounds per acre which is done by having every second drill spout plugged or covered and the drill set at half a bushel for wheat.

### ADVANCE IN APRICOTS

The apricot is a comparative newcomer to the Canadian prairie. Although the search for hardy, adaptable apricot has been mainly within the last 20 years, substantial progress has been achieved in that short time. Three prairie stations have had a part in this development: the North Dakota Agricultural College, Fargo; the University of South Dakota, Brookings, South Dakota; and the Dominion Experimental Station, Morden, Man. Recently the provincial Horticultural Stations at Brooks and Strathmore, Alberta, have made a number of selections.

Two species have been used principally to secure the necessary hardiness for Western conditions. These were the Siberian apricot, *Prunus sibirica*, and the Manchurian apricot *Prunus mandchurica*, says C. R. Ure, Dominion Experimental Station, Morden, Man. Results so far indicate that the Manchurian is most likely to give the combination of hardiness and quality desired.

At the Morden Station the best encouragement has come from working with the Manchurian species. Numerous crosses between the Siberian apricot and the varieties Moorpark, Stella, Scout, Sophia and Wensche have not given anything considered valuable. A large F2 population of a cross of Siberian x Moorpark has been grown at Morden from seed secured in 1935. From these, one selection of M601 was given a re-test number. None of the other seedlings has created enthusiasm at the station.

The best to come from Morden and to be named is the variety, Scout. This is a Manchurian seedling selected in 1935 and named in 1937. Among named varieties which are hardy at Morden it has rated highest in cooking tests. It is an attractive, well flavored, free-stone fruit which has yielded abundantly. Many seedlings of Scout have fruited from

### EASY SET-OPENER

For those who "hate to get up in the morning", officials of the Physical Fitness Division of the Department of National Health and Welfare at Ottawa, recommend this simple "getting up" stunt—lie back full length, stretch the arms naturally but vigorously a few times—and then—just get up. That, say the authorities, will wake up muscles and turn drowsiness into determination to be up and doing.

1940 on. Among them are some promising selections now in the preliminary stages of tests. The trees are mostly strong and hardy. The fruits preserve well, have rated high when cooked, often equal to or superior to Scout. The majority of seedlings bear fruit which are definitely free-stone, a clear apricot color, firm flesh, although occasionally somewhat dry, oblong and flatish in shape, and fair quality. They retain shape well in cooking. A block of seedlings from seed purchased in Manchuria through the U.S.S.R. has provided a different type of fruit. Trees of these are tall, spreading and hardy. The fruits are generally rounded, mostly clingstone, very juicy, somewhat shreddy, and a tendency to become soft when cooked.

The last advance has been achieved through the cross of Scout x McClure. There has been much encouragement come from several seedlings of this combination. The fruits are showing increased size, and in many a higher dessert quality than Scout. This past year three selections have been given re-test numbers, M602, M603 and M604. M604 is the finest quality apricot selected at Morden so far. Last year it measured 1-5 inches in diameter, and flesh 1/2 inch thick. Flesh color is reddish orange, firm, fine textured and sweet. As a cooked product it is rich, sweet, pleasing in flavor, and rated excellent. Selection M602 and M603 are not as distinctive as M604 but are superior to Scout in fruit quality.

Every human mind is a great alumbering power until awakened by keen desire and by definite resolution to do.—Edgar F. Roberts.

# THANK YOU for waiting for delivery of your NEW GENERAL MOTORS CAR

We are doing our best to see that you  
get your new car as quickly as possible

We want to thank every one of our customers—and every prospective customer as well—for the friendly patience with which you are awaiting your new General Motors car, whether it be a Chevrolet, Pontiac, Oldsmobile, Buick or Cadillac.

That patience will be more than rewarded when we hand you the keys to one of these great new General Motors cars, for here, in our judgment are automobiles ahead of their time—far and away the best in each of their respective classes.

We know how difficult it is to wait even a day for a car of General Motors exceptionally fine quality; but we believe you will understand that we and General Motors are as eager to deliver cars as purchasers are to obtain them. Unfortunately, the cars produced so far this year are far fewer than we and the factory had counted on. General Motors headquarters at Oshawa sums up the situation thus:

"Even though our rate of production normally exceeds that of any other manufacturer, we have been able to build, up to August 1, only a small percentage of the number of cars we built up to that date in 1941. Our own production, like that of the industry in general, is still far below normal, because of frequent shortages of essential materials and parts. Strikes after strikes at the plants of our suppliers have seriously impeded our progress toward full production, and the cumulative effect severely hampers both manufacturing and assembly."

While production is restricted, so—in proportion—are shipments of cars to us. As production increases, we are assured of getting our proportionate share of the total number of cars from the factory. But we want you to know that as quickly as these cars are received, we will speed deliveries to our customers.

We thank you, again, for your understanding and patience—confident that when your turn comes to enjoy the brilliant new standards achieved by the new General Motors cars, you will be thankful you waited.

G34-143

Remember—Our CAR SERVICE is your best CAR-SAVER. Keep your present car in good condition until you get delivery of your new General Motors car, by bringing it to us for skilled service now and at regular intervals.

## Hints for the Household

### ENJOY FRESH TOMATOES NOW

#### CANNED TOMATOES LATER

The "Love Apple" of past generations has overcome the prejudice surrounding it and its supposedly poisonous qualities, and has developed into one of the most popular vegetables, or fruits, whichever one prefers to call it. It has even had a change of name as well as status because, nowadays, it is more familiarly known as the tomato.

At the moment, gardens all over the country are yielding up their harvest of bright red tomatoes, and in countless homes, they are finding their way to the breakfast, dinner and supper table. Little wonder when garden-fresh tomatoes are so good and the season is so short!

Even the green tomato has many uses. Sautéed green tomatoes make an old-fashioned dish well worth eating, and green tomato mincemeat is another favourite, to name just two. There are often green tomatoes left on vines at the end of the season which refuse to ripen, but that is no reason they cannot be put to good use. Surplus ripe tomatoes present no problem for they are so easily canned for the winter months ahead. The home economists of the Dominion Department of Agriculture's Consumer Section, suggest that all the tomatoes possible be canned by homemakers this year, to keep any of this valuable crop from going to waste. To can tomatoes, they suggest three methods—cold pack, solid pack and hot pack, they are more broken down, but are excellent for soups, or other dishes where appearance is not important.

No matter which method of canning is used the preliminary preparation is the same. Sort tomatoes according to size, and remove any which are over-ripe, or blemished. Blanch to remove skins, by placing tomatoes in a wire basket or cheesecloth bag, and plunging into boiling water for a few seconds to loosen skins then into cold water to chill. Remove stem end, and peel and pack according to the following methods.

#### COLD PACK TOMATOES:

Pack the peeled tomatoes into clean hot sealers or into plastic tin cans, add half a teaspoon of salt per pint or twenty-ounce tin, and cover with hot tomato juice. To make tomato juice, cut broken or irregular tomatoes into pieces, cook until soft enough to press through strainer to extract juice.

Adjust rings and glass tops on sealers with spring or screw tops and partially seal, and completely seal tin cans. Be sure to leave a head space of 1/4 inch in glass top sealers and tin cans. Process in the boiling water bath 30 minutes for pints and twenty-ounce tins, and 35 minutes for quarts and twenty-eight ounce tins.

#### SOLID PACK TOMATOES

Pack whole peeled or quartered tomatoes into hot sealers or plain tin cans, pressing down until covered with juice. Add salt, and adjust rubber rings and tops as directed in Cold Pack method above. Process in boiling water bath, 35 minutes for pints and twenty-ounce tins, and 40 minutes for quarts and twenty-eight ounce tins.

### HOT PACK TOMATOES

Place peeled tomatoes in Kettle, bring to boiling point and pack hot into hot sealers or plain tin cans. Add salt, and adjust rubber rings and tops as directed in Cold Pack method above. Process in boiling water bath, 15 minutes for pints, quarts, twenty and twenty-eight ounce tins.

A new version of an old favourite is the Tomato Cheese Soufflé designed to make use of the fresh tomatoes available now.

#### Tomato Cheese Soufflé

3 tablespoons fat  
3 tablespoons flour  
1 cup milk  
1/4 teaspoon salt  
1/4 teaspoon pepper  
1/4 cup grated cheddar cheese  
2 egg yolks  
2 egg whites  
4 medium tomatoes  
3 tablespoons flour

Salt and pepper to taste.  
Melt fat in top of double boiler, blend in flour and season with salt and pepper, and gradually add milk. Stir until thickened. Place over hot water, add cheese and stir until melted. Stir a small portion of cheese sauce into slightly beaten egg yolks, and return mixture to sauce in double boiler. Cook slightly and fold in stiffly beaten egg whites. Cut tomatoes in thick slices, dredge with flour seasoned with salt and pepper to taste. Arrange tomatoes in the bottom of a greased baking dish, pour soufflé mixture on top. Set dish in pan of hot water, and oven poach in a moderate oven, 350°F., 50 to 60 minutes until set. 5 to 6 servings.

#### TOMORROW'S TID BIT

Here's a tidbit for tomorrow, today or any time you feel like delighting the family with something unusual, inexpensive and truly delicious. It presents several old standbys in a new combination, to provide a tasty dish that should become one of your favorites.

Try it today, tomorrow—or some time soon, for it's in tune with the times and the weather.

#### Sausage and Apple Sauce Roll

1 pound sausage meat  
2 tablespoons finely chopped onion  
1 cup crushed wheat bran  
1/4 teaspoon cinnamon  
1/4 teaspoon cloves  
1/4 teaspoon nutmeg  
2 1/2 cups fresh or canned apple sauce

Combine sausage meat, onion, and bran. Place mixture between two sheets of waxed paper and roll mixture into rectangle, 1/4 inch thick. Remove waxed paper; add spices to apple sauce and spread 1 cup over sausage mixture. Roll as for jelly roll and place, cut-edge down, in shallow baking dish. Bake, uncovered, in moderate oven (350°F.), 50 minutes, or until done. Heat remaining apple sauce and serve hot with sausage roll. Makes 6 servings.

#### PEANUT BUTTER OUTLETS

1 1/2 cups peanut butter  
1/4 cups hot milk  
1 teaspoon salt  
Pepper  
6 half-inch slices of bread  
Mix peanut butter with hot milk and seasoning, mixing together thoroughly. Dip slices of bread into the peanut butter mixture. Sauté in hot

### TALLER GIRLS OK AS STEWARDESSES

Taller members of the female species can take new heart. Trans-Canada Air Lines raised its height qualifications for stewardesses by one inch. From now on they will accept the girls up to five feet six inches. The minimum remains the same at five feet. Weight limitations are still 135 pounds top. Reason for the addition is the gradual change-over to larger aircraft including the forthcoming four-engine equipment.

### BETTER BREAKFASTS

Nothing is as important to start a day right as a good breakfast, say health leaders. In a reminder of this fact, the Department of National Health and Welfare says "Take time to live sensibly. Get a decent breakfast before plunging into the day's work or play. This is particularly important for growing children, who must have a substantial, well-balanced meal if they are to thrive."

fat. Garnish with pickles and olives.

#### CRUMBERHEAD

3 cup sifted flour  
1/4 teaspoon soda  
2 teaspoons baking powder  
1/4 cup sugar  
1/4 teaspoon salt  
1 teaspoon ginger  
1/4 teaspoon cloves  
1/4 teaspoon cinnamon  
2 eggs  
1 cup milk  
1/4 cup fat, melted  
1 cup molasses

Sift dry ingredients together. Combine beaten eggs, milk, and melted fat, and add this mixture to dry ingredients, stirring in molasses last. Bake in shallow pans in moderate oven (350 deg. F.) for 30 to 40 minutes, or in muffin pans in hot oven (400 deg. F.) for 20 to 25 minutes. Four milk with 1 teaspoon soda and 1 teaspoon baking powder may replace sweet milk and soda and baking powder.

## NEWS & VIEWS OF TOWN AND DISTRICT

**BORN**—To Mr. and Mrs. C. Jeffcoat of Edgerton at the Wainwright municipal hospital on September 8th, a girl.

Mrs. Henry Ward, Jr., returned last week from a holiday in Vancouver where she attended her brother's wedding.

Mr. and Mrs. Robt. Tierney of Vancouver are visiting at the home of Mr. and Mrs. Geo. Arkwright while renewing acquaintances in town and looking after their farm interests.

Mrs. H. C. Wallace was a visitor to the city for a few days last week.

There was a fair crowd at the auction sale of the household effects of Mr. Vic Cowley on Saturday, and things brought good prices under the auctioneer's hammer wielded by Messrs. Gardner Boyd and E. Dowerman.

Mr. H. A. Koch is enjoying his annual holiday from his duties at the Treasury Branch and while away the management is under Mr. C. G. Scott of Calgary.

Mr. Chas. Wilbraham was a visitor to the city last week where he acted as official representative of the local sea cadets for Montgomery's visit.

We are sorry to learn that Bill Horn is confined to the hospital suffering from a severe cold and hope to see him up and around soon.

Mr. Ian MacGregor, the local Co-op manager, was a tripper to Edmonton on business last week.

Mr. and Mrs. LeRoy Carl have moved into their new home which they recently built on Eighth Ave. West.

Philip Stinert returned home the first of the week having received his discharge from the army in Calgary.

We note the grader has been over the streets in town again trying to smooth out the rough spots—almost a full time job with the recent heavy rains.

Mr. and Mrs. C. H. Reynolds motored to the city for a few days last week.

A Cordial Invitation Extended To All

**WAINWRIGHT GOSPEL MISSION**  
L.O.O.F. HALL

Sunday School—1:15 p.m.  
Gospel Service—3:30 p.m.

Speaker: Mr. Oacraft  
Weekly Prayer Meeting

Miss Lorna Reid who is enjoying her annual holidays from her duties at Patterson's store spent a few days in Edmonton last week.

After an extended holiday spent visiting her parents and other relatives at the coast, Mrs. R. Leggett returned home last week reporting a very good time.

Mr. and Mrs. Alan Ryan and son Bruce motored to Edmonton for a few days last week.

Dr. J. D. Wallace visited with his family over the week-end returning to his duties at the University hospital on Monday.

Mrs. Welch returned home on Friday last week from an extended holiday visiting with her daughters Mrs. C. Clarke at High River and Mrs. J. Burke at McLeod.

A number of local townspeople drove to Edmonton on Sunday to see the final baseball games in the league for the season.

Miss Mildred Alexander left the first of the month for the coast where she entered the Royal Columbian hospital in New Westminster on September 2nd to commence her nurse's training.

Mr. and Mrs. W. Carrell are enjoying their annual holidays visiting with relatives at the coast.

We notice Ryan and Mitchell have made an improvement on their premises by the addition of a light on their Third Ave. entrance.

Mr. A. N. Toole, Divisional Superintendent for the U.O.G., and Mr. Cameron, travelling superintendent, were in Wainwright last week and called on their local agent, Mr. Lyman Alexander while here.

W. Carrell, Jr., spent a short time in Edmonton last week visiting his brother Quentin and family.

Miss Jenny Hissett is spending a vacation at her parents home south of Wainwright.

For those who "hate to get up in the morning", officials of the Physical Fitness Division of the Department of National Health and Welfare at Ottawa, recommend this simple "getting up" stunt—lie back full length, stretch the arms naturally but vigorously a few times—and then just get up. That, say the authorities, will wake up muscles and turn drowsiness into determination to be up and doing.

Minds grow keener when they grow clearer.

To lose your fear of old age start fighting for a new age.

## Gathering Honors Departing Family

A pleasant evening was enjoyed by all at Park Road school on Friday, August 30, when a farewell party was given for Mr. and Mrs. A. P. Jerram and family who are leaving the district.

A large gathering of old time neighbors and friends were present and enjoyed an evening of dancing and reminiscing.

A tasty lunch was served by the ladies of the district after which Mr. P. T. Haywood was called upon to express the feelings of everyone in a few well chosen words. He then, assisted by little Darlene Denison, presented Mr. and Mrs. Jerram with a chest of silver. In accepting the tokens of remembrance the honored couple suitably replied.

In the wee small hours the party broke up to everyone joining hands and singing "For They Are Jolly Good Fellows" and "Auld Lang Syne". Music was supplied by the Precision Radio Company.

The district welcomes Mr. and Mrs. Charles Oldenburg and daughter who have taken over the Jerram Ranch.

## "OUT OF THE NORTH"

Two events in Northwest Canada one thoroughly planned, the other purely accidental—have drawn two CJCA staff members northward. Exercise North, a Canadian Army expedition along the Alaska Highway as far north as Muncho Lake, is at present making military history and is regarded as important in military circles as Exercise North.

CJCA's Ed Bryant is one of the personnel, covering the highlights for special CJCA and CBC broadcasts. A forced landing of an American private-owned plane on miles north of Edson has sent CJCA's special events commentator Hal Yerxa to the spot on two occasions.

He accompanied the rescue pilot in his first attempt. They returned after deciding that a landing on the main meadow would be too hazardous.

The second flight was planned with the object of dropping supplies, but upon arrival the pilot and Hal found that the marooned American had built a crude message to the effect that he had left on foot for Edson.

Hal related his experience over the opening broadcast of CBC News Roundup September 5, and Ed Bryant hit the network on the very next day.

While admitting the comforting effect of smoking on adults accustomed to it, health authorities condemn excessive smoking. This, they point out, can cause a tiresome chronic cough and catarrh, and will have a detrimental effect on endurance by making the heart irritable with consequent onset of fatigue. Moderation is advised in smoking as in all activities.

## THE DOMESTIC ANIMALS ACT (MUNICIPALITIES) Sale and Redemption of Impounded Animals (Sec. 48)

Notice is hereby given under Sec-  
tion 48 of The Domestic Animals Act  
(Municipalities) that 1 Black Mare,  
branded X left shoulder, 5 years

of age, was impounded in the pound  
kept by H. C. Driver. Located on the  
SW 23-45-0-4 on Monday the 15th  
day of July A.D. 1946, and that  
the said animal was sold on the 2nd  
day of August 1946, to Gordon  
James of Wainwright and that said  
animal may be redeemed by the owner  
or on his behalf within a period of  
thirty days from the publication of  
this notice in The Alberta Gazette,  
upon payment of all fees and costs  
due to the municipality and the pur-  
chaser of said animal.

For information apply to the un-  
derigned.

**CHAR. WILHELMSSON,**  
Secretary-Treasurer of the  
Municipal District of Wain-  
wright, No. 61  
Post Office: Wainwright

## Town of Wainwright NOTICE BY-LAW No. 471

Notice is hereby given that the  
Council of the Town of Wainwright  
will apply to the Board of Public  
Utility Commissioners for a Certifi-  
cate approving of By-law No. 471 of  
the Town of Wainwright, being for  
the purpose of borrowing Ninety-four  
Thousand, One Hundred and Ninety-  
three Dollars (\$94,193.00), at 4 per  
cent per annum repayable over a  
term of Thirty (30) years, in varying  
instalments of principal in each of  
the years 1947 to 1976 inclusive, re-  
quired for the purpose of providing  
a sewer and sewage disposal system  
for the said Town.

Notice is further given that the  
said application will be made at the  
office of the Board of Public Utility  
Commissioners, Edmonton, Alberta,  
at 10:00 o'clock in the forenoon on  
the 25th day of September, 1946, and  
that any person objecting to the By-  
law must file such objection with the  
Board before 10:00 o'clock in the  
forenoon on the 25th day of Septem-  
ber, 1946, the date set for the hear-  
ing of this application.

DATED at Wainwright, Alberta,  
this 9th day of September, 1946.  
**DON PAWSEY,**  
Secretary-Treasurer,  
Town of Wainwright.

## Town of Wainwright NOTICE BY-LAW No. 470

Notice is hereby given that the  
Council of the Town of Wainwright  
will apply to the Board of Public  
Utility Commissioners for a Certifi-  
cate approving of By-law No. 470  
of the Town of Wainwright, being  
for the purpose of borrowing Ninety-  
nine Thousand, Eight Hundred and  
Seven Dollars (\$99,807.00), at 4 per  
cent per annum, repayable over a  
term of Thirty (30) years, in vary-  
ing instalments of principal in each  
of the years 1947 to 1976 inclusive,  
required for the purpose of providing  
a water supply and distribution  
system in the said Town.

of Wainwright, in the Province of Al-  
berta, Retired, Deceased.

NOTICE IS HEREBY GIVEN that  
all persons having claims upon the  
Estate of the above named Joseph  
Saluste Caron who died on the 17th  
day of February, A.D. 1946, are re-  
quired to file with J. A. MacKenzie,  
K.C. of Wainwright, Alberta, by the  
2nd day of November, A.D. 1946,  
a full statement, duly verified of their  
claims and of any securities held by  
them, and that after that date the  
Executors will distribute the assets  
of the deceased among the parties en-  
titled thereto, having regard only  
to the claims of which notice has  
been so filed, or which have been  
brought to their knowledge.  
DATED this 3rd day of September,  
A.D. 1946.

**J. A. MacKenzie**  
Solicitor for Arthur Caron  
and Ernest Caron,  
Executors of the said Es-  
tate  
Wainwright, Alberta.

## OPEN LETTER TO THE TOWNSPEOPLE BY A.F.U. LOCAL

Fabyin, Alberta  
Sept. 7th, 1946

The Editor,  
The Wainwright Star.

Dear Sir:  
May we the undersigned, address  
through the medium of your paper,  
an open letter to the tradesmen and  
townspeople generally of the town of  
Wainwright and district. As we are  
members of the Alberta Farmer's  
Union, which is now on strike, it has  
been drawn to our attention that the  
tradesmen and townspeople are very  
much against the strike, on the  
grounds that it is of a communist  
origin, we may say that this Union  
is not a communist organization. It  
is formed solely to benefit farmers  
who have beliefs of every political  
party in the Dominion, as the signa-  
tures will show. May we point out  
according to statistics just received,  
out of 22,000 members in the A.F.U.  
there are only approximately 300  
members of the Labor Progressive  
Party who are union members. Now  
do you think it is possible for 300  
members, with not one of those men  
being in an executive position (on  
the central executive), to control the  
policy of an organization of this size.  
We would, therefore, like and do ask  
your co-operation to the fullest ex-  
tent, as you must be aware of the  
fact, the farmers properly mean  
you also. May we suggest that your  
Board of Trade, and any other  
organizations, send a wire to the  
Premier McKenzie King, asking him  
to form a fact-finding Board as re-  
quested by the A.F.U. This is the  
main point of our request, as a fact  
finding Board if constituted will go  
into the matter of the difference be-  
tween the price of farm products and  
the price of goods the farmer has to  
buy. We think this is a very fair re-  
quest. It is quite apparent that the  
public are not acquainted with the  
brief presented to the Federal Govern-  
ment which asks for a permanent  
fact-finding board to determine  
parity prices, personnel of said  
board to be appointed equally by  
farmers, direct organized member-  
ship, Labor, Business and Govern-  
ment. Any other requests made by  
this organization were until such  
time as parity prices are established  
as parity prices are established.

G. R. Tindall, Jr., President  
A. R. Golding, Secretary  
Strike Committee of Battle River  
Local No. 561:

Seth Oldham  
J. C. Fries  
J. A. Laycock  
H. Johnson.

through its Wheat Board, is selling  
approximately half of Canada's ex-  
port wheat to Britain at \$1.35 basis 1  
Northern Fort William, and the  
other half at the open market price,  
which today is \$2.05. The average  
price received by the Board is, there-  
fore, at the moment, considerably  
more than \$1.05, but the Government  
is paying farmers only \$1.35 basis 1  
Northern Fort William (which  
means \$1.17 only at the average  
prairie point). Thus it seems the  
Government is withholding 20 cents  
or more a bushel from farmers for a  
period of 5 years, when farmers  
will be entitled to participation  
payment; always provided, of course,  
there are any profits left at the end  
of that time.

I myself can see no reason for the  
withholding of such a large sum as  
20 cents or more a bushel from farm-  
ers for 5 years. Farmers will soon  
have considerable expenses to meet,  
new machinery to purchase, painting  
and repairing of homes and build-  
ings, and new clothes to buy for  
themselves and their families. That  
20 cents a bushel now withheld,  
would go a long way to meet these  
necessary expenses. Twenty cents a  
bushel, I suggest, therefore, is of  
more value now in the pockets of  
farmers, than it is resting in the  
Treasury at Ottawa for five long  
years.

**ITEMS OF INTEREST IN**  
**THE WORLD OF FOODSTUFFS**  
Brazil has prohibited exports of  
certain prime necessities interpreted  
to mean foodstuffs, and has provided  
for entry of wheat, flour and other  
agricultural products duty free—  
Wheat supplies in Canada, Argen-  
tina, Australia and the U.S.A. on  
July 1st, are estimated at 373 mil-  
lion bushels less than last year.

Wheat production in Greece is es-  
timated at 31 million bushels, com-  
pared with the five year average of  
28 million bushels—Prospects of the  
native grain crops in India are sat-  
isfactory with favorable weather  
conditions—Russia has offered to  
sell wheat to Britain and the offer  
is under consideration.

\*The atom bomb won't end this old  
world—if we build a new one first.

## PUBLIC NOTICE

IN THE ESTATE OF BRUCE  
NICHOLLS, late of Wainwright, in  
the Province of Alberta, Farmer de-  
ceased.

NOTICE IS HEREBY GIVEN that  
all persons having claims upon the  
Estate of Bruce Nicholls, the above  
named deceased, who died on the  
14th day of May A.D. 1946, are re-  
quired to file with the undersigned  
Solicitor for the Executor of the said  
Estate, at Wainwright aforesaid, by  
the first day of December A.D. 1946,  
a full statement, duly verified by  
affidavit, of their claims; and after  
that date the Executor will proceed  
to distribute the Estate among the  
parties entitled thereto, having re-  
gard only to the claims of which  
notice has been so filed, or which  
have been brought to his notice.

DATED AT WAINWRIGHT, this  
21st day of August A.D. 1946.  
**M. G. CARDELL.**

## FOOT CARE

Good shoes and care of the feet  
are recommended by the Department  
of National Health and Welfare, for  
both health and comfort. Feet, they  
say, should be washed, or given a  
brisk rub, daily, in cold water. Socks  
should be washed frequently to keep  
them soft. A change of stockings  
after work is also recommended,  
and authorities warn health seekers  
that wet shoes and stockings should  
be changed as soon as possible.

## Dr. J. R. McParland

CHIROPRACTOR  
will be at the  
**WAINWRIGHT HOTEL**  
**EVERY WEDNESDAY**  
Starting August 7th  
hours: 11-12 and 2-6  
(2-40)
